

Glamorous Gloss

Spruce up your interior this Spring with OKA's new gloss furniture collection. Painted with layers of gloss paint and given an extra polish for a super sleek finish, this sparkling new range will add instant glamour to any style of home from country house to city apartment.

Based on the popular Voyage design, the new Gloss side tables come in two sizes and are available in red, black or white. The larger is an ideal sofa or bedside table while the smaller size fits perfectly in awkward tight spaces. Side by side they add an interesting style lead element to a room.

The stunning coffee table makes a dazzling centre piece, clean in design and high in shine. Whilst the TV cabinet is a 'must have' for Spring storage solutions - perfect for concealing all the television paraphernalia in style!
